

## CC/CG destination charges list

5-September-2019

For the countries in the lists AFKLMP send AWB/HAWB information due to customs requirements. In case the forwarder doesn't send AWB/HAWB information or it is incomplete / incorrect, AFKL will do the necessary input, in cases we charge the CC (manual data entry) or CG (Electronic processing or transmission of data) charges.

### Non European countries with custom requirements

This list will be regularly updated with new countries. More and more countries introduce custom requirements for which we need AWB/HAWB details.

## European Countries

- For flights the AWB/HAWB details are always needed when the off point is within the EU.
- For trucks the AWB/HAWB details are not needed when the origin is an EVA country and the destination country does not have pre-arrival customs requirements.
- For EU-EU traffic AWB/HAWB details are not needed.
- "For this purpose taken as part of EU", we need AWB/HAWB details because AMS or CDG are always used as transit station to these countries.

Russia and Turkey are in the “Non European countries with custom requirements” list.

## Transit

When the final destination lies in a country without custom requirements it is still possible custom requirements are applicable because of the transit station. The EU and US require the same data for transit shipments as shipments destined for that particular country.

## Disclaimer

The lists above contain an overview of customs requirements applicable for our operations. It may not be complete, but it contains the requirements currently known to Air France KLM Cargo. Adherence to legal shipment information requirements, is primarily a responsibility of the Shipper and his agent as per Montreal Convention, articles 5, 6, 7, 10 and 16. Any omission in this, can therefore not be used as an excuse for non-compliance.
