AIR FRANCE KLM MARTINAIR Cargo further consolidates its network

— Winter Schedule 2015 —

AIR FRANCE KLM MARTINAIR Cargo is pleased to announce that, effective 25 October 2015, it will increase its presence in traditional global markets and will add various new services to its network.

During the coming winter – when demand for air cargo is generally strong – our 165 long-haul, wide-body, belly-cargo carriers will offer adequate capacity to meet market needs and customer expectations. Our two hubs at Paris-CDG and Amsterdam-Schiphol will offer the usual wide range of services, but will also launch new opportunities on a regular basis.

The winter schedule traditionally features seasonal capacity increases to destinations such as South Africa, Thailand, Mauritius, and the Caribbean.

In Africa, where we remain the continent's leading cargo partner, we will boost capacity by operating twice-weekly full-freighter services to Cairo. In West Africa, we will launch new full-freighter services to Pointe-Noire, Brazzaville and Douala, and we will resume service to Entebbe. This will bring the total number of weekly freighter services between our two hubs and Africa to no fewer than 41.

We will also pursue our focus on Asia. Here we will broaden the range of services we offer by way of a strategic network developed in partnership China Southern (CZ). This will enable us to offer customers a combination of wide-body, belly-cargo carriers and full-freighter capacity between our European and Chinese destinations, and beyond via the extensive network of our Chinese partner. This service will be a real plus, as we will be using each other's ground facilities for the swift and seamless transfer of shipments!

AFKLMP Cargo is actively & ceaselessly committed to improving its operations and services to the benefit of all customers.
